## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-12 are allowed. As the first reason for allowance, see the Board of Appeals decision for an interpretation of the claims and the prior art cited in the rejections of record.

The following is an examiner's statement of reasons for allowance.

The instant claims are to an insert-molded article, comprising:

- a film having transparency,
- a thermosoftening decorative print layer printed by use of a crosslinking printing ink on the backside of said film for the purpose of visual observation from the front surface side of said film,
- a binder layer printed on said thermosoftening decorative print layer by use of a low-crosslinking printing ink or a non-crosslinking printing ink as the source of said binder layer, and
- a resin molded by injection on said binder layer.

The prior art does not teach an insert-molded article including each of these layers wherein the thermosoftening decorative print layer is printed by use of a crosslinking printing ink, the binder layer is printed on said thermosoftening decorative print layer by use of a low-crosslinking printing ink or a non-crosslinking printing ink as the source of said binder layer, and a resin molded by injection on said binder layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
